

English

We will be studying the classic book 'Oliver Twist' by Charles Dickens. We will be writing a character description inspired by the characters and then we will be writing a biography for one of the characters from 'Oliver Twist'.

Science

During this unit, children will begin to explore materials and their properties.

Maths

This term's focus in maths will be ordering, comparing, adding and subtracting fractions as well as continuing to practice the four operations.

Year 5 What was life like in Queen Victoria's Britain- Would you like to swap places? Autumn 2

Music

In music, we will be continuing with our ENO project. We will be focusing on composing our class piece and looking at how different instruments can portray different messages. We will look at how dynamics, tempo and structure can help us create a detailed piece of music.

French

We will begin by looking at how to talk about our health in French. We will then look at different countries and cities in French.

PSHE

We will be looking at online healthy relationships and how we can keep ourselves safe and use the internet responsibly.

Computing

We will learn how to create short videos and develop the skills of capturing, editing, and manipulating video.

RE

During this unit of work, we will explore different religions, views on charity and how they contribute to those charities.

History

During this unit, we will step back into the Victorian era to investigate the divides between rich and poor social classes, understand how the Industrial Revolution reshaped cities and jobs, and discover what life was really like for children growing up during this time.

PE

In indoor PE, we will be exploring the different dance styles of Jazz and Charleston and creating our own routines. In outdoor PE, we will be learning how to play blind football.

DT

We will use our woodworking and design skills to research, create, and build a personalised pencil pot for a specific customer.
